Plaintiff	:	Judge Richard D. Wetzel
-vs-	:	
THE LANDINGS PROPERTY	:	
ASSOCIATION, INC., ET AL.	:	
Defendants.	:	

FOURTEENTH INTERIM REPORT OF RECEIVER

Now comes Jack Harris of Intercept Management Corp., the court-appointed receiver for the Defendant The Landings Property Owners Association, Inc. ("Receiver"), by and through counsel, and makes this *Fourteenth Interim Report of Receiver* with the Court. The Receiver reports as follows:

1. The remediation and repair of the Knox Cattle Dam ("Dam") has now been completed, and all punch list items accomplished. De-mobilization from the site is underway. The project was completed on budget, without overruns.
2. Receiver and counsel for the Long Defendants submitted a draft *Order Granting Motion For Approval of Proposed Amendments To The Declarations of Building and Development Restrictions For The Landings Development Phases VII and VIII*, and same was entered by the Court on August 28, 2026.
3. The Receiver is in the process of recording the amendments and the Court Order.

4. Revised by-laws for the homeowners' associations have been provided to counsel for the Long Defendants for review after initial comments. Prior to submitting the final draft by-laws to the Court for approval, the Receiver must first determine what the initial association dues will be.

5. Upon Court approval and adoption by the Receiver on behalf of the homeowners' association, an initial meeting will be held of the affected homeowners in order to establish boards for the respective associations.

6. The Receiver and the City Engineer's office have completed their work on the recommendation for the dam maintenance fund assessment. As referenced prior, the City has agreed to collect those assessments on the tax bills of the appropriate parties and will assume responsibility for conducting any maintenance to the dam going forward.

7. Exhibit "A" summarizes all maintenance to be done going forward as well as the estimated expense of same, adjusted for inflation going forward. Exhibit "B" is a "living unit analysis" prepared by the City Engineer which determines the impervious area of each affected lot. It then provides monthly assessment numbers under a "flat rate" plan (\$15.07), and a bifurcated plan which splits the affected properties into "high density" (\$11.87) and "low density" (\$16.95).

8. Attached as Exhibit "C" hereto is a compilation of all properties which the Receiver and City Engineer have determined are dependent upon the Dam for its stormwater management. Names of the property owners have been redacted for privacy reasons.

9. While no formal motion for approval of a funding plan has been made to the Court, the Receiver favors the bifurcated plan as the most equitable as among the affected properties.

10. During completion of the Dam project, the Receiver heard from several residents in the affected properties regarding the condition of the perimeter of the pond/dam area. Due to a lack of maintenance over recent years, the perimeter has become overgrown.

11. Because that condition would not affect the performance of the remediated Dam, clearing of that area was not included in the Dam project. However, several of the homeowners have expressed a desire to have the area clear-cut of all vegetation and trees for aesthetic reasons.

12. The Receiver is willing have the work done, but a recent estimate puts the price of the project at \$45,000.00. This would be a one-time expense. The Receiver would support a one-time assessment of all affected properties to pay for the additional work.

Respectfully submitted,
